

SUSTAINABILITY GENERAL INFORMATION

Dear Guests;

Our precautions taken in our facility within the scope of sustainability and our expectations from you,

ENVIRONMENT

• We support recycling by separating our waste according to their classes at the source and giving them to licensed companies.

We have received our Zero Waste certificate issued by the Ministry of Environment.

We calculate our monthly energy savings by calculating the amount of our waste.

We prefer the chemicals we use to be environmentally friendly. We calculate the amount of chemicals we use monthly.

Our expectations from you are to support us in the separation of waste in order to leave a livable environment for our future generations.

Protection of Natural Habitats

Biodiversity refers to the variety of life forms all over the world and the ecological processes that are part of them. Endemic plant varieties found in Antalya include Sand Daisies, Sand Lilies, and Side Monstera Grass.

For the protection of these endemic plants, we

- **Do not harm these plants when visiting areas with endemic plants such as sand lilies or Side monstera grass.**
- **Do not tear – Do not root and do not step on.**
- **Do not enter these areas with ATV engines.**

There are countless ways that we unknowingly contribute to the destruction of these endemic plants.

HISTORICAL SITES

Cultural Heritage is Fragile.

Today, many people are not aware that cultural heritage is exposed to risks arising from sudden natural disasters such as earthquakes and floods, slow-moving processes such as pollution, and other activities of humanity.

Even the most innocent actions, such as taking small pieces from old pottery or mosaics as souvenirs, have a destructive effect when repeated by thousands of people.

Touching a textile, stone or metal object leaves traces of oil or acid from sweat on it.

Climbing a historical structure causes it to wear and fall apart.

Writing or engraving a name causes irreparable damage.

Walking around with large bags or backpacks in narrow and crowded spaces can knock over a piece or scratch a picture on the wall, causing it to be damaged.

There are countless ways we unknowingly contribute to the destruction of cultural heritage.
